G.O.A.L.S. Profile

Short Term	Mid Term	Long Term
What can we do to help this student in the immediate?	What questions surface regarding systems barriers? Gather data	What policy, protocol, or practices changes need to occur to mend the system?

What themes or trends across, down, and within systems will emerge?
Working to identify where the “fix” needs to happen

Specific example from a G.O.A.L.S. Profile interview with a student:

Situation:

Student has been a run away, prostituting herself, and ditching school....

Interview Question:

“What could someone have done differently when you were ditching school so often?”

Student Response:

*“I wanted someone from the school to call my house and report that I was ditching, but it took three weeks for anyone to call.
What I wanted then was to get caught.”*
