Family Literacy Project

The Latino Family Literacy Project provides proven, cost-effective parent involvement programs and training for teachers. The literacy programs and training workshops are designed to establish family reading routines for Spanish- and English-speaking parents and their children at your school site. The Project introduces the teachers to the VISTA Method, a language acquisition method and a step-by-step literacy instruction process. It involves family reading, vocabulary development, and English-language development for Latino parents and their children.

Parent Institute for Quality Education

PIQE is working to create a community in which parents and teachers collaborate to transform each child's educational environment, both at home and at school, so that all children can achieve their greatest academic potential. **During the past 20 years, PIQE has graduated more than 375,000 parents from the basic nine-week parent involvement program and impacted more than 1,000,000 students.**

PIQE's philosophy is based on the simple premise that all parents love their children and want a better future for them. Every child can learn and deserves the opportunity to attend and complete a college education, and parents and teachers must work together to ensure the educational success of every child. For children, learning is a natural process that parents and teachers can facilitate.
